## BBC Inside Science

The Hub will integrate new and improved methods into new trials in collaboration with regional and national CTUs working closely with clinicians especially surgeons.

## Royal Army Medical Corps Muniments Collection

Termination of pregnancy is only available in Northern Ireland if it is necessary to preserve the life of a woman; including where there is a risk of a serious and adverse effect on her physical or mental health, which is either long term or permanent. Salman Goudarzi who receives a Symington Bequest Award to fund participation in the Eu-ropean meeting on Glial Cells in Health and Disease in Edinburgh from 8-11 July 2017; Professor Stefan Przyborski who receives a Symington Bequest Award to fund participation in the International Society for Stem Cell Research meeting in Boston, USA from 14-17 June 2017. This commitment covers both existing protection and keeping pace with future EU law protection.

## Department of Pathology and Molecular Medicine, Faculty of Health Sciences, Queen's University, Kingston, Ontario, Canada

It also determined if appropriate assessment methods were utilised. If there are sufficient judicial resources granted, then there is no need for any backlog in cases and trial dates up to this year can be given to any case that is ready within a matter of days. In the Tuskegee study, African American patients who were already infected with syphilis had diagnosis and treatment deliberately withheld from them in order to observe the progression of the lethal disease over several decades even after a perfectly simple treatment - penicillin - became available.

## Parasitology and Pathogen Biology (MSc)

An Audit on Use of Non-invasive Ventilation in Acute Hypercapnic Respiratory Failure J. IBUPROFEN TREATMENT OF PATENT DUCTUS ARTERIOSUS IN PRETERM INFANT, EXPERIENCE FROM STOCKHOLM S Johansson Department of Woman and Child Health, Karolinska Institutet, Stockholm, Sweden Background and Aims: Ibuprofen treatment of patent ductus arteriosus PDA was introduced at the Karolinska University Hospital, Stockholm, Sweden in 2001. This week, a study showed that ocean acidification does not significantly alter fish behaviour, as had been reported several times before.

### **Graduate Studies**

Three neutrophil proteases and markers of platelet activation were quantified by FRET and ELISA respectively. They report an association between telomere length and lowered risk of coronary heart disease but increased risk for cancer.

### **Parasitology and Pathogen Biology (MSc)**

The Commission has a statutory remit set out under the Irish Human Rights and Equality Commission Act 2014 to protect and promote human rights and equality in Ireland, and build a culture of respect for human rights, equality and intercultural understanding in the State.
