We know that sending letters continues to decline. Speak the default business language In this age of globalization, English has become the dominant business language.

### Getting down to business worksheet

If you use Twitter, who do you follow? If you were writing an email or a letter to a potential employer, which sentence would you more likely use as your opening sentence? For example, clicking the meaning bubble associated with the phrase figure out, reveals the word resolve — which would be more appropriate in the context of a business letter. Just get your documents ready in a PDF format and that would be all.

### Language classes funded by the Government of Canada

In groups of 4, students pick the category and point value.

### **ESL Teachers / Skilled Immigrant InfoCentre**

I had a professor at once that claimed there were three main keys to running a classroom— Movement, Water and Laughter. It is fast-paced, but easy enough to follow. Therefore, it improves your chances of success as you will seem like someone who understands a certain topic better, as well as someone who knows how to express themselves properly and interact easily with others.
