### Occupational Pensions

Most businesses have now been running their schemes for several years and many are dealing with their triennial re-assessments and re-enrolments. Corpad can resolve this situation by establishing your own scheme, written under a bespoke trust. This is further evidenced by our accreditation under ISO 9001 and our status as an approved BACS bureau for the supply of pension payroll services.

### OPRA

The Authority develops contacts and enters into administrative arrangements with supervisory authorities, international organisations and administrations of third countries. You can watch on a number of pension related topics, including understanding your pension, state age pension, approaching retirement, charges, tax relief and investment risk. Where a person acts on behalf of another, that person may take all such steps and do all such things for the purposes of these Regulations as that other person is by these Regulations required or authorised to take or do.

### The Pensions Authority

Changes to legislation: The Occupational Pension Schemes Requirement to obtain Audited Accounts and a Statement from the Auditor Regulations 1996, Section 3A is up to date with all changes known to be in force on or before 20 February 2021.

### The Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996

There are changes that may be brought into force at a future date. Each national authority must nominate a high-level alternate member to replace the head of the institution if that person cannot attend a meeting of the Board of Supervisors.

### Records of the Occupational Pensions Board

Where those effects have yet to be applied to the text of the legislation by the editorial team they are also listed alongside the legislation in the affected provisions. TPR's 'Making workplace pensions work' is a guide to its new way of operating. The European Insurance and Occupational Pensions Authority EIOPA is one of three European Supervisory Authorities ESAs which was created to strengthen the EU supervisory framework and to reduce the risk and damage of a future financial crisis.
