### **Is There a God?**

We cannot observe the discovery of America, nor can we experimentally repeat it. Incontrovertibly, the existence and predictable operation of the physical universe, in all its parts, will lead an honest, intelligent inquirer to believe in the existence of God. Uranus, and their systems, and finally out of the solar system into the unfathomable recesses of the abyss beyond, pictures of incredible varieties of chemical and physical forms hitherto unimagined were sent back to earth.
