### Overview

Unless otherwise specified, privilege licenses, stamps, and certifications are valid for 12 months from date of purchase. We are responsible for implementing and enforcing more than 40 laws and policies to protect living marine resources.

### Non

Already, significant amounts of oil were coming from offshore facilities: 376 million of the 483 million tons produced in the Middle East in 1973; 431 million barrels a day in Nigeria, 141 million barrels in Malaysia, 246 million barrels in Indonesia. The coastal State may, without discrimination in form or in fact among foreign ships, suspend temporarily in specified areas of its territorial sea the innocent passage of foreign ships if such suspension is essential for the protection of its security, including weapons exercises. Vessel documentation has a long history in the United States with some of the first requirements being outlined by the 11th Act of the First Congress in 1790.

### Complete Guide to USCG Documentation Standards and Requirements for Boats

Coastal States have certain other obligations, including the adoption of measures to prevent and limit pollution and to facilitate marine scientific research in their EEZs.

### Fisheries Frequently Asked Questions

It is also illegal to import, export, or transport and sell endangered species in interstate or foreign commerce. Managing these fisheries over the long-term means taking into account more than just one species at a time.
