Food technology in developing countries : proceedings of the International Symposium on Food Technol...

International Journal of the Computer, the Internet and Management, 15 3. In the tropical and subtropical semi-arid regions, which include most of Africa, there is a significant shortage of feed during the dry season, which greatly impedes livestock production, such as a decrease in livestock weight and dairy cow milk production.

Technol...

Extension of symbiotic biological nitrogen fixation technology in developing countries

The book is organized into five major categories of Internet development concerns: access, openness, diversity, security, and critical resources. A 1985 Institute of Medicine study⁶ demonstrated that, in the United States, a dollar spent on vaccine development saved 10 dollars in health care costs; that ratio is now thought to be about 1:12.
