. Students begin studying for the qualifications at the beginning of fourth year although they will often lead on directly from the courses they were studying beforehand. The exam board Edexcel also offers its own version of the IGCSE.

### Improving Schools in Scotland: An OECD Perspective

See: Actions across the life course to improve health and wellbeing contribute to delivering the Government's overall Purpose of increasing sustainable economic growth. School curriculum and qualifications The Curriculum for Excellence CfE is the national curriculum used from nursery to secondary school. It is a process which puts service users on the same level as the service provider.

### Improving Schools in Scotland: An OECD Perspective

To make that happen, we need a clear flow of information and clear actions on delivering improvement in all parts of the education system. Find out more about costs and the application process for GCSEs and equivalent qualifications.

### Improving Schools in Scotland: An OECD Perspective

Find out more on the website. Literacy and numeracy initiatives include: Read, Write, Count This campaign gives parents of children in P1 to P3 access to a range of hints, tips and advice to help them support their child's literacy and numeracy learning in those crucial early years of primary school. I am also publishing today the 2016 National Improvement Framework Evidence Report.

### Learning

Find out more: Making maths count This initiative aims to transform attitudes to maths so that its value is seen as an essential skill for every career.

### GCSEs and equivalents

It also aims to improving confidence and fluency in maths for children, young people, parents and all those who deliver maths education to raise

attainment and achievement across learning. Future changes resulting from the Curriculum for Excellence review of qualifications are detailed below. We will update these with additional information as we have it.
