Under such conditions it is becoming very important to provide new approaches to studying problems of education, in particular, to focus on formation of educational and professional identities and directions in different social groups. So he was not only a major contributor to the ongoing flux in aesthetics and art, but he was also a preeminent initiator of the new religious seeking around the turn of the century. Создание доверительного отношения к врачу выступает как главная составляющая эффективного лечения.

## **Эмпатия как фактор достижения профессионализма в деятельности врача**

This is partly due to the first Russian critics who established this idea in critical literature and set up a canon concerning the *chelovekobog* that still resounds in present research. In order to revive contemporary culture, he promoted the re-installment of pagan Greek virtues, such as beauty, sensuality, and intuitive creativity.
