Author: April Carter Publisher: Stockholm International Peace Research Institute ISBN: 9780198291282 Category: Political Science Page: 308 View: 398 Governments have been negotiating about disarmament, or more limited forms of arms control, for forty years. Pedro Nevilla's proposal was mentioned. However, as he had stressed to the Secretary, if there should be any delay in reaching a broader agreement on the subject, this should not entail any delay in reaching an arrangement on this point with respect to the two German states.

## INTERNATIONAL NEGOTIATIONS ON ENDING NUCLEAR WEAPON TESTS, September 1961

The appraisal of the relationship between the requirements and developments of the UK nuclear weapons programme against the countervailing international and domestic pressures for a test ban treaty will be of interest to anyone studying post-war British defence and foreign policy, history of science, arms control, disarmament and non-proliferation and international relations, or who is looking for background information on current events involving nuclear proliferation and disarmament. . The dome was roughly 21 meters 70 feet in diameter and 30 meters 98 feet in height.

**Holdings: International negotiations on ending nuclear weapon tests :**

Though it was signed by President Bill Clinton, the Senate rejected the treaty by a vote of 51 to 48. Second, they were chiefly useful in measuring relatively large earthquakes in which seismologists were interested for scientific purposes. Arms Control and Disarmament Agency: , also by William C.

### **International Negotiations on Ending Nuclear Weapon Tests: September 1961**

The Secretary observed that he had been sorry to see that Khrushchev, in his recent speech, had come back to the point that any kind of inspection was tantamount to espionage. The Limited Nuclear Test Ban treaty was signed in Moscow on August 5, 1963, by US Secretary Dean Rusk, Soviet Foreign Minister Andrei Gromyko, and British Foreign Secretary Lord Home—one day short of the 18th anniversary of the dropping of an atomic bomb on Hiroshima.

### **Document 189**

We cannot publicize new data in such a way as to make it appear that information is ahead of policy. Inspection was purely invitational although each country was committed to maintaining qualified observers who represented a type of ad hoc commission. He noted that there was a risk in talking about a test ban if the Soviets finished their series and we have not held our final test in the current series.
