## Environmental Impact Assessment (EIA)

Employers should identify key workers who carry out critical activities and plan for what should happen if they fall ill. Despite the demanding circumstances created by the current coronavirus crisis, this overriding requirement remains.

## The Planning (Environmental Impact Assessment) Regulations (Northern Ireland) 2017

We work with foundations, investors, governments, corporations, communities and civil society to formulate strategies and implement solutions that generate lasting social, environmental and financial benefits. Use our 01 6147000 number to avoid possible additional charges from your mobile operator. You can ask someone else like a friend or relative to pick up your medicines instead.

## WHO/Europe

Critically, employers should take into account the most up to date official advice and guidance from the Public Health Agency on how to mitigate the health risk to employees and others at the place of work. Quarries and open—cast mining where the surface of the site exceeds 25 hectares, or peat extraction where the surface of the site exceeds 150 hectares. Training in relation staff redeployment and temporary cover Employers must take steps to ensure that staff who are redeployed to other work due to absences etc.

## Environmental Impact Assessment (EIA)

Urgent Dental Care clinics As General Dental Practices started to see more patients, the arrangements for the Urgent Dental Care Centres were revised from 1st September.

## WHO/Europe

The European Medicines Agency EMA and the European Commission have been providing guidance to help pharmaceutical companies prepare for the consequences of Brexit since 2017.
