Herberg holds that ethnic separateness has become meaningless to these elements, and even threatening, for they fear any alienation from the general community. For secularization theorists, the issue is whether these new, less formal belief systems have the personal and social significance that characterized old-time religion.

The boomer generation has been more exposed to the world's religions and spiritual teachings than any generation ever. Belief and practice, in their view, are individualized, possibly privatized, but still with us.

## **Protestant**

For sure, there is much experimentation, but beneath much of what we observe at present, I believe, is an authentic quest for wholeness. The main reason for his expulsion was joining the Communist Party of the USA and becoming a loyal member. The very title of this book arouses suspicion.

Through his works, Herberg proved to be a competent writer who addressed controversial religious issues. It occurs not just as a spiritual struggle for women, gays and lesbians, and other minorities, but also among those who - as is very common among young people - have weak ties with a religious tradition, who have been raised in non-practicing or non-observant families, or who are born into mixed-faith families. While Protestantism is declining in numbers, Catholicism is growing.
