## **Ireland's never been more alone in the EU**

The Parliament uses this to decide whether to approve the commission's handling of the budget. While services account for 60—70% of GDP, legislation in the area is not as developed as in other areas. Ireland must follow , and must conform to the rules and standards that have been agreed between member states through treaties, legislation and directives.

## **The European Union Budget: Member State Contributions and Expenditures**

Economic and social cohesion: the Union embodies the principle of economic and social cohesion according to which the less prosperous regions are helped to reduce disparities between their levels of development and those of the more prosperous regions. These five countries accounted for approximately 70% of the 2016 EU budget. In other policy areas the EU can only co-ordinate, support and supplement member state action but cannot enact legislation with the aim of harmonising national laws.
