Proofs and Fundamentals

This is the first and last class in Statistics. This second edition has been significantly enhanced, while maintaining the balance of topics and careful writing of the previous edition.

Bachelor of Science [B.Sc] (Statistics) Syllabus, Course Structure and Program Schedule 2021

The author offers an extensive list of entry-level and advanced textbooks in mathematical statistics for further reading Includes such topics as graph theory, linear programming, probability, descriptive and inferential statistics, voting systems, game theory, population growth, computer algorithms, and codes and data storage.

Mathematical Statistics

Principles of designing experiments for collecting data.

Freund & Perles, Statistics: A First Course, 8th Edition

Our goal is to introduce the basic theory without getting too involved in mathematical detail.
