### 1.3 The Evolution of Media

In Professor Bolter's subtly developed argument, the computer - obviously enough the present age's defining metaphor - is an outgrowth of both the clock and the steam engine. Both of these education activists have seen how typical classrooms function in the Western world, and both have seen how typical classrooms function in the developing world. Christianity and Roman Catholicism played a dominant role in the shaping of the Western.

### 1.3 The Evolution of Media

There is also a reason Reed thinks the virus went undetected for so long.

#### **Ohio Man Charged With Putting Spyware On Thousands of Computers : All Tech Considered : NPR**

It was actually aiding the learning process. Cuyahoga County Sheriff's Department A 28-year-old man who allegedly hacked into thousands of computers to watch and listen to users has been indicted in Ohio.

### 1.3 The Evolution of Media

Their literature would bring forth works that intertwined religious, philosophical, mythological, and political all in one. Men such as Socrates, Plato, and Aristotle changed the way we look at philosophy. In Great Britain, the government managed broadcasting through the British Broadcasting Corporation BBC.

#### **Art History Timeline: Western Art Movements and Their Impact**

Led by , Fauvism built upon examples from Vincent van Gogh and George Seurat.
