Children, Youth and Families at Risk (CYFAR)

A Focus on K—12 Supports To sustain the effects of early interventions, it is crucial to strengthen the capacity of K—12 schools to monitor and support students once they arrive at school. And the effects of gun violence extend far beyond those struck by a bullet: An estimated three million children witness a shooting each year.

The Impact of Gun Violence on Children and Teens

Although Black students represent approximately 15 percent of the total K-12 school population in America, they constitute 25 percent of the K-12 student victims of gunfire who were killed or shot and wounded on school grounds.

The Condition of Education

Some are full-day programs with content area courses and English language instruction, while others are half-day and integrated with regular school classes. Latinos are the least educated of all major ethnic groups see fig.

Facts & Statistics

Health disparities may stem from economic determinants, education, geography and neighborhood, environment, lower quality care, inadequate access to care, inability to navigate the system, provider ignorance or bias, and stress Bahls, 2011. Socioeconomic status can encompass quality of life attributes as well as the opportunities and privileges afforded to people within society.

The Condition of Education
