**The Cabinet Papers**

Think of the welfare state as a loosely constructed, largely unplanned structure erected by many different people over centuries.

**The Cabinet Papers**

The economist had synthesised the bravest visions of all important government departments into a single breathtaking view of the future.

**The Cabinet Papers**

Confrontation increases the misery of the North Korean population, and reduces the regime's ability to change, and diverts South Korean government's resources to non-productive uses. More immediate concerns in this regard might be the prospects of political relationship, economic cooperation, and labor migration between South and North Korea. On the other hand, their expansionist, nepotistic, and monopolistic management stifled the nurturing of professional managers, the growth of small- and medium-sized enterprises, and the equitable distribution of wealth.

**Population Change and Development in Korea**

With the introduction of the Infant and Childcare Act, the South Korean government began to consider childcare provision as a public matter and a social responsibility. And even when the war was finally over, the victorious, impoverished British maintained vast numbers of men and resources tied up in an empire on which the sun was about to set. To associate them with each other will strike most Americans as bizarre, even offensive.

## **Population Change and Development in Korea**

Let me offer some specific examples that illustrate how the OECD has contributed to economic policies in Korea. Within the reconfigured welfare state, work in the regular labor market emerged as the gold standard, the mark of first-class citizenship, carrying with it entitlement to the most generous benefits. European nations were about a generation behind the United States in expanding secondary education; the United States was about a generation behind Europe in instituting its welfare state.

### **Happier Economy Better Than Larger Economy**

About 60 percent of Americans receive their health insurance through their employer, and many receive pensions as well.
