## Dissertations

Gender inequality and discrimination are generally discussed as pertaining to women, but anyone can experience gender-based inequality or discrimination. The sudden surge in opportunity entrepreneurship in Korea during this decade, with a flourishing of world-class fashion and industrial designers and dynamic ICT and biotechnology-related ventures, after a dearth of three decades under an oppressive regime in which they had no role to play, would probably have occurred even without the proactive public policy in support of entrepreneurship, just in giving people the opportunity to express themselves in a liberalized political and business system. Developing a gendered theory of migration has been difficult because the disciplines of anthropology, sociology, political science, economics, demography, law, and history have tended to focus on only a few types of migration and stress different explanations.

## SAGE Reference

One reason may be that the pressure to link school choice with gains in student achievement has placed issues of selection bias and test score differences at the forefront, thus overshadowing serious efforts to examine qualitative differences in the learning opportunities experienced in choice versus other types of school settings. It makes many people eager to take advantage of the loopholes in the rules and their implementation, and the gaps in both markets and institutional structures. Our starting point is to recognize the big changes that have taken place both in politics as practice and political science as a discipline over the last century.

## Achieving policy impact with political economy research: frameworks, applications, and lessons learned

An economic theory of political action in a democracy.

**Gender and Political Economy : Incorporating Diversity into Theory and Policy** by Heather Boushey, Ellen Mutari and William Fraher IV (1997, Trade Paperback) for sale online

These ideas have again affected what has been deemed suitable subject matter for the academic discipline of politics.

## **Development theory**

Second, mimetic pressures to copy successful forms during periods of economic or political change or high uncertainty can stimulate change. However, scholars also showed that women and men do often exhibit differences in their political attitudes and behavior, but not necessarily in the ways that had been assumed e.

## **Development theory**

In doing so, it attempts a number of things. And some studies confirmed that the presence of women did change decision-making and policies Wängnerud ; Swers ; Celis ; Kittilson ; Schwindt-Bayer. This perspective reflects the functionalist approach of early ecological anthropology see Early ecological anthropology.

## **Ecology and Society: Social**

We have examined how different strands of social anthropology and political ecology have responded to address these limitations. The first is an analysis of the nature of the institution matrix, including both the formal and informal side.
