### EU Biodiversity strategy for 2030

Noting practical constraints on sustaining biodiversity in the region, the Strategy outlines tactics for addressing focal areas that cut across several sectors — forestry, wildlife, agriculture, and others.

### EU Biodiversity strategy for 2030

Regional biodiversity corridors, which are also identified through BPAs, are displayed on the regional biodiversity network map. Actions you can take Everyone can do something to help protect our native biodiversity, whether it be as simple as keeping your cat indoors during the night or planting natives and trapping pests. Biodiversity is essential for life.

### Biodiversity Strategy » Hawke's Bay Biodiversity

Why is a Strategy needed for the Okanagan? This process also involved the cooperation of different departments of the Basque Government and the Provincial Councils, the municipalities and society in general through meetings, interviews and forums.

### Southern African Development Community :: Show

By investing in Keeping Nature in our Future we can help to protect our rich natural assets as a legacy for future generations. It's a living document, and an ongoing process. Biodiversity can help fight climate change.

### Regional Biodiversity Strategies and Action Plans

There are more than 1,400 source-to-sea surface water catchments. This means, for example, that 60% of the population of the Basque Country drinks quality water from Natura 2000 Network areas at a cost significantly lower than what it would cost to obtain drinking water from an artificial purification system.
