Northern River Otter: Mammals: Species Information: Wildlife: Fish & Wildlife: Maine Dept of Inland Fisheries and Wildlife

The animal has disappeared from more than 90 per cent of its former territory, and has vanished completely from the South-west peninsula. Detailed guidelines intended to minimise suffering have already been drawn up. National Water Vole Database In 2008 the UK Water Vole Steering Group of which NE is a member established the National Water Vole Database and Mapping Project, which aims to collate, map and analyse water vole and American mink data from across the UK.

Water voles eat plants—mostly grasses—and plant parts, such as berries, twigs, buds, and roots. Recently though, the arrival of an invader has brought hard times for Ratty.

Water voles back in Malham Tarn

The anti-mink campaign would dwarf the last such project to eradicate a non-native species, the elimination 20 years ago of the coypu, a big South American rodent that caused damage to dykes in East Anglia, and it would have to be agreed to by Government ministers. Females range from 94cm— 112cm, mean is 104cm. This one is peeking out of a drainpipe.

Water voles

To reverse the damage we've done and protect the future, we need the knowledge that comes from scientific discovery. The tale is also longer in the male than in the female, ranging from 36cm— 47cm mean 43cm, while females range from 35cm— 42cm mean 39cm.

Water voles: ecological engineers

Polecat Mustela putorius Like the otter, legal protection has helped polecat numbers grow in recent decades. . The vegetation is usually flattened out, and the area may contain numerous piles of otter spraint, often comprised of fish scales or crayfish parts.

Welcome Back, Water Voles

They do well around Alston and are seen from time to time around Melmerby and Renwick. From previous research, it has been observed that extinctions of sub-populations are spatially correlated Sutherland et al. A wild population became established in the 20th century following escapes and releases from fur farms.
