In fact, so surface level that I hesitate to call this a good introductory handbook. It describes methods of data collection taking notes, participant observation, interviewing, identifying themes and issues, creating ethnographic maps and tables and charts, and referring to secondary sources and analyzing and writing ethnography sorting and coding data, answering questions, choosing a presentation style, and assembling the ethnography. Although content is focused on producing written ethnography, many of the principles and methods discussed here also apply to other forms of

ethnographic presentation, including ethnographic film.
