Anyone who is a patient, or works with patients, will learn a good deal about what they can do to make signs in waiting rooms, brochures on the wall rack, or a doctor's written instructions easier for everyone to understand. Helen is president of Health Literacy Consulting based in Natick, Massachusetts.

## **Health Literacy from A to Z: Practical Ways to Communicate Your Message.**

My favorite way to read it is to open it up anywhere and read whatever is on that page, because everything in the book is practical what-to-do and how-to-do-it. Over the last 10 years, health literacy has received increasing attention from researchers, policy makers, and practitioners, and Osborne has distinguished herself as one of the leading consultants in this area. Whether you are a health provider, public health specialist, health educator, practice manager, literacy teacher, professor, student, or librarian, this book is for you.

### **Preventing Chronic Disease: April 2005: 05\_0006**

The tone is at once folksy and warm, but also authoritative. Washington DC : National Academies Press; 2004. Osborne offers a few of her favorite references at the end of each chapter to help the reader get started.

### **Health literacy from A to Z: : practical ways to communicate...**

This book is intended as an easy-to-use guide for health communications. Osborne proposes that formal literacy assessments be given to patients.
