High School Graduation Requirements

By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

Assessment Services / Advanced Placement (AP) Testing

Away from the classroom, teachers have opportunities to develop a reflective perspective on teaching by considering different points of view on their own teaching practice and that of others.

Tests & Assessments

Doing so enables the teacher and staff developer to work together to interpret classroom events in light of various ideas about teaching, learning, and subject matter.

Testing Programs

Also on the list is support for summer learning and afterschool programs. One of the solutions is a weak acid, one a strong acid, one a weak base, and another a strong base. Districts have flexibility on how to target the funds they receive, including how and which schools are funded.
