Trucking Industry Trends: 2021

It costs thousands of dollars to attend a CDL school. A strategy that helps them efficiently screen, train and onboard the best candidate while also complying with a mix of strict industry guidelines. In fact, some statistics have shown that over one-half of males with high school diplomas who did not attend college work in the trucking industry in some fashion.

Trucking Industry Experts Optimistic About 2021

Those that think that TL will have another strong year claim there is still demand rebound that needs to happen. When loads get dispatched, drivers hit the road, and individuals working behind the scenes coordinate it all, the rest of us see the direct results of the hard-working men and women making it all happen. Rachel Premack contributed reporting to this article.

2021 General Freight Trucking Industry Statistics & Market Research Report

Due to varying update cycles, statistics can display more up-to-date data than referenced in the text. This system also allows the company to track the driver's fuel usage, speed, gear optimization, engine idle time, location, direction of travel, and amount of time spent driving.
