## Intonation in Romance

Social and Regional Variations of English Language. Having some contact with the standard language, they tend to shift from one form to the other. Furthermore, as a complete piece of music, what differentiates the maqam entirely from its European counterparts is that the musician has complete freedom with regard to the rhythm and the potential for introducing variations.

## Regional variation in intonation: Conversational instances of the “hat pattern” in Cologne German

Every single one of the Australian-born kids there was one English kid on the camp said his name with the same sound at the end as at the beginning.

## Regional And Social Variation Essay

Dialect variation in regional dialect is also influenced by three factors completing each other which are time, place, and socio-culture. The UK is made up of the countries of England, Scotland, Wales on the island of Great Britain and Northern Ireland on the island of Ireland. All dialects have communicative value within the particular dialect community; it is when the person moves out of their home dialect community that they may encounter negative evaluation.

## English intonation in the British Isles

Differences between Aboriginal English and Australian English are found in pronunciation including word stress, grammar, meaning, vocabulary, use and style. We do not know how much of age-based variation is due to individuals changing as they grow older and how much is due to the pronunciation changing from year to year.

## Intonation in Romance

Music Listened to I came across this programme on Radio 4 which was a visit to Tahrir Square by Palestinian musician Reem Kelani; Sayed Darwish, seen as the founder of modern Arab classical music and many influences and contemporaries are played in this documentary. In the cities of the Maghreb countries Morocco, Tunisia, Algeria and Libya, the nouba has retained its characteristic form to this day. How can natural speech

then be recorded for us to study? Word meanings also change upon stress.
