### Home

The audience is limited to US Citizens only via DD2345. Among other objectives already mentioned, the MIT AgeLab is leveraging the multiple streams of high-definition video obtained as part of this large-scale real-world driving data collection to fuel the development of deep learning based internal and external perception systems.

### ABB establishes new R&D center for electric vehicle technology

ITS Moscow includes the development and maintenance of an Intelligent Transport System ITS which should reduce major transport problems and traffic jams in Moscow. Its commitment to driving progress in e-mobility is shown most clearly through the title partnership with the ABB FIA Formula E World Championship, which is about to enter its fourth season.

### SEMA GARAGE

The effort aims to develop human-centric insights that drive the safety efficacy of automated vehicle technology development and advances the consumer's understanding of appropriate technology usage. We focus on serving as a unique resource for industry, academia, government laboratories and other organizations by fostering the integrated management and sharing the facilities to undertake research on the next generation automotive technologies that are commercially viable in the future. Plus listen online, on the app, and on a wide variety of connected devices at home—listening will never be the same.

### Advanced Vehicle Technology

In order to tackle this problem, Moscow city authorities mandated the creation of ITS Moscow, a joint project between the federal government and city officials aimed at fighting Moscow traffic jams.

### SEMA GARAGE

Proceedings of the 10 th. The research is studying the moments when control transfers from the driver to the car and back again, as well as how drivers respond to alarms lane keeping, forward collision, proximity detectors, etc. COVID-19 Safety Information ARCTOS is monitoring the

situation with COVID-19 on a regular basis to ensure that best practices are being followed at this year's AVTech Symposium.
