## Technical books online

CAUTION LARGE 86MB PDF file , RCA, 1949, 483 pages - Courtesy of Walter Welch, AI4SP! Hi-Quality professionally done copy that is plastic spiral bound with a clear plastic cover guard. Very complete, covering basic theory though practical construction of mostly ham radio equipment, though much applies to any vintage electronic project. This version is one I have scanned myself, in one file, with added nested PDF bookmarks so it's easy to find things.

## Ben Martin's Radio Library

Houldin, 1969, 610 pages - Courtesy of Daniel Thompson British textbook on electronics for university students. This is a good clean used hard cover book that is in very good condition with 427 pages.

MB PDF file , International Telephone and Telegraph Corp. Covers; American broadcasting stations and their state of origin at the time, a map of the world, foreign broadcasting stations. For some reason it crashes if I try and do color, so I use the professional TWAIN driver to do that.
