## Align OPTN Policy with U.S. Public Health Service Guideline, 2020

Maybe this won't be a problem, but I think hospitals need to be given time to more clearly understand if these requirements would be a problem for their facility. We feel that this policy has potential to increase liver transplants.

Similar anatomic grafts from LDs have become widely used in adults.

## Manual of Vascular Access, Organ Donation, and Transplantation

Thank you for your consideration. We recommend that the OPTN consider removing this requirement to the extent feasible.
