Texas Justice Court Training Center : Texas State University

Depending on the jurisdiction, there are usually several different authorizations required from local municipalities and environmental agencies.

Study at UOW

Typically, natural gas engines diesel or gas are less fuel efficient 15% than their gasoline or diesel equivalent. As you fill up a cylinder quickly the pressure and temperature will rise. Since the organic fraction of municipal solid waste can represent approximately 50% of MSW mass, it becomes economically interesting to divert the organic fraction from conventional disposal towards anaerobic digestion.
