Ralph Waldo Emerson Quotes

. If each great man makes the science which he vitalizes take a long step forward, he never presumes to fix its final boundaries, and he is necessarily destined to be outdistanced and left behind by the progress of successive generations.

Ralph Waldo Emerson Quotes

. It absorbs colouring matters, and tincture of litmus diluted with 20 times its bulk of water agitated with it and thrown upon a filter passes.

THE ACTION OF DRUGS ON RESPIRATION, The Journal of Experimental Medicine

Men of system are also distinguished from men of experimental science by the fact that the first impose their idea, while the second always give it just for what it is worth. . Even more than the scientific memoir, the treatise and the lecture are formal, logical, systematic; thus, truly intelligible and living only to the initiated.

Thomas Lauder Brunton

Where then, you will ask, is the difference between observers and experimenters? This state of affairs is the clearest of proofs that the experimental method has by no means come into its own in medicine. Purgatives are substances which cause intestinal evacuations.

On the explanation of Stannius's experiment and on the action of strychnia on the heart

. A volatile liquid, consisting of equal volumes of heavy oil of wine and of stronger ether. .
