Nozick offers two of the best known cases in which the normative and non-normative baselines would appear to diverge. With respect to his thinking about coercion, Mill is most famous for his views, in *On Liberty*, about what coercion is not fit to do: namely, be used to regulate people's behavior for their own good.

Coercion Law and Legal Definition

The carving out of areas for production and distribution of sugarcane is necessary to preserve continuity of supply and to prevent shortage and defective distribution. Coercion may make some actions necessary, but human beings in any natural world will be constrained by necessities of many sorts: the physical limits of our bodies in our environments, and our needs for things such as nourishment, shelter, protection, and even perhaps community, recognition, and love. It was held that the plaintiff has made out a strong *prima facie* case establishing at this stage that the 1st defendant had procured the consent of the plaintiff to the stipulation in the bank guarantee for its invocation irrespective of non-receipt of the amount of refund of Customs duty as a result of economic duress and fraud committed by it on the plaintiff and the special equities of the situation also warrant grant of an injunction in favour of the plaintiff as sought for.

Coercion and Influence

When one party is in a much stronger bargaining position than another, the stronger party sometimes uses its advantage to keep for itself most or all of the gains to be had from cooperative interaction between the parties.

Coercion (Stanford Encyclopedia of Philosophy)

But with a bit of planning, you can make a safe exit from the situation.
