Strategies for Teaching Students With Learning Disabilities

For more information on terminology, see the guide provided by the National Center on Disability and Journalism: Types of Disabilities. Disabilities can be temporary such as a broken arm, relapsing and remitting, or long-term. Together, work out alternate procedures while trying to disengage the student from the activity. The number of children with disabilities, ages 3-21, served in the public schools under the Individuals with Disabilities Education Act IDEA Part B in Fall 2003 was 6,068,802 in the 50 states, D.

Kuder, Teaching Students with Language and Communication Disabilities, 5th Edition
