Results: The key overarching theme to emerge from interviews with 38 parents was the importance of the terminology used to refer to the death of their baby. Tweetable abstract: Describing baby loss shortly before 24 weeks of gestation as a 'miscarriage' does not prepare parents for labour and birth, seeing their baby and making memories. Appropriate terminology validated their loss, and impacted on parents' health and wellbeing immediately following bereavement and in the longer term.

It was especially helpful as I navigated through this past pregnancy with my son. This was a book that I had to read in sections as I went through my grief stages after losing my first son last year at full term. And not just that, I feel sure that I'll have the knowledge to help not only myself, but others I know and love if they ever find themselves in a situation similar to those in whose stories I've read.

I believe this was a British book and I did not have the Kindle version- mine was paperback and widely available in the United Kingdom, where I was living at the time of my son's death.
