### History of Use and Trade of Agarwood

The PN oxidation step gave a 6:1 mixture of Compound II and ferric CPO, the photolysis step gave an approximate 1:1 mixture of active oxidant and ferric CPO, and the final mixture after reaction with excess styrene contained ferric CPO in 80% yield.

### Guide to the Ralph Page Manuscript Collection, 1940

Similar to P450-I, this species is reactive. Box 47, Folder 19 Messer, Don. Aromatics were a recurrent subject in literary works Bedini.

### History of Use and Trade of Agarwood

Middleton's Selection of Strathspeys, Reels, etc.

### Tectonic evolution of Sabah, Malaysia

Box 25, Folder 24 Page, Laura S.

### History of Use and Trade of Agarwood

Although many studies have been undertaken before and after 1984 to characterize Compound I, its electronic structure and physicochemical properties are still a mystery. EMER O'KEEFFE - The Search for Missing Friends Irish Immigrant Advertisements Place in the Boston Pilot Volume Iv: 1857-1860 : HARRIS, L.

### Tectonic implications of the hydrated garnet peridotites near Mt Kinabalu, Sabah, East Malaysia

The conversion of high-spin CPO to low-spin enzyme complicates the spectral analysis, and we do not believe we can generate a unique spectrum for the transient by deconvolution of the results we obtained.

Drawing on the experience of communities and experts, Flood Hazards: Impacts and Responses for the Built Environment offers guidance on managing urban flooding and flood risk. The Portuguese apothecary Tomé Pires visited Malacca and India between 1512—1515 C.
