Around Anza Valley [Images of America] [CA] [Arcadia Publishing]

Today the area is one of the last undeveloped areas in Southern California and is rich in Native American influence and culture. We can speak of a topo graphy of the seabed, for instance, but not of the ocean itself: maritime boundaries are cartographical abstractions, imaginary lines drawn on

subaqueous terrain, impossible to inscribe onto the shifting volumes of liquid above. So readers should always verify and corroborate the names, dates, and places described in the captions.
