## Chapter 8: Business Processes

Post hoc analyses revealed a significant association between higher levels of anxiety symptomatology and poorer overall WM performance. Aldo's idea was to offer to a group of researchers, actively working in selected fields of Nuclear Physics, the opportunity to confront their points of view in a lively and informal way.

### Rethinking the production meeting

This seminar will be presented by Alex Compton, NCI-Frederick. Strategies have been developed to manage the referral of patients to secondary care, with interventions that target primary care, specialist services, or infrastructure.
