

Channels and channel control structures - proceedings of the 1st International Conference on Hydraulic Design in Water Resources Engineering: Channels and Channel Control Structures, University of Southampton, April 1984

Springer-Verlag - Channels and Channel Control Structures: Proceedings of the 1st International Conference on Hydraulic Design in Water Resources Engineering: Channels ... University of Southampton, April 1984: Smith, K. V. H.: 9783662113028: tools.github.ffxiv.cn: Books

Description: -

1969-1972: Head of the Civil Engineering Unit
1965-1967: Academic Secretary of the Faculty of applied sciences
1961-1964: President of the Civil and Architectural Engineering Department
1968-1969: President of the Faculty Council
OTHER FUNCTIONS
2006-2009: Chairman Fluvial Hydraulics Section, International Association of Hydraulic Research
1994-1995, 1996-1997, 1998-1999, 2000-2001, 2001-2002, 2004-2005: Invited professor at the Swiss Federal Institute of Technology, Ecole Polytechnique Fédérale de Lausanne, Switzerland, Institute of Hydraulic Research
1992 - 1996: Vice-president of the ADECF (Association of European Civil Engineering Faculties)
1988 - 2002: Member of the Wilson County for flooding due to river subsidence
1988 - 1991: President of National Centre for Research in Civil Engineering
TEACHING ACTIVITIES
LECTURES IN 2011-2012 AND 2012-2013 AS INVITED PROFESSOR
LAUCE 1101: Hydrologie générale et statistique (General and statistical hydrology)
LAUCE 1102: Hydrologie (Hydrology)
LAUCE 2151: Hydrologie appliquée (Applied hydrology)
LAUCE 2152: Océanographie et hydrologie (Hydrologic structures), in collaboration with Didier Lemoine
LAUCE 2153: Hydrologie fluviale (Fluvial hydrology), in collaboration with Sandra Soares Prado
LAUCE 2154: Hydrologie statistique (Numerical methods in hydrology), in collaboration with Sandra Soares Prado
LAUCE 3185: Méthode des éléments finis (Fluid and drought control)
AM02 2148: Hydrodynamique (Hydrodynamics)
LAUCE 2495: Hydrodynamique urbaine (Urban hydrodynamics), in collaboration with Sandra Soares Prado
LECTURES IN 2011-2012 AND 2012-2013 AS INVITED PROFESSOR
LAUCE 1102: Hydrologie (Hydrology), in collaboration with Sandra Soares Prado and Eric Deterre
LAUCE 2151: Méthode des éléments finis (Fluid and drought control), in collaboration with Sandra Soares Prado
LAUCE 2495: Hydrodynamique urbaine (Urban hydrodynamics), in collaboration with Sandra Soares Prado
Vues 2782 - December 2012

The most outstanding development to have occurred is in the combination of physical and mathematical modelling, which in hydraulic engineering has followed a parallel path to that in other branches of engineering science. Irrigation and Hydraulic-Design, volume I.

[PDF] IRRIGATION AND DRAINAGE ENGINEERING PDF

Book Descriptions: We have made it easy for you to find a PDF Ebooks without any digging. Druck auf Anfrage Neuware - The development of water resources has proceeded at an amazing speed around the world in the last few decades.

[PDF] IRRIGATION AND DRAINAGE ENGINEERING PDF

The hydraulic engineer has played his part: in constructing much larger artificial channels than ever before, larger and more sophisticated control structures, and systems of irrigation, drainage and water supply channels in which the flow by its nature is complex and unsteady requiring computer-based techniques at both the design and operation stage. Proceedings of the Eighth Congress on Irrigation and Drainage, volume IV,
