Guide to securing personal information — OAIC

APP 5: Notification of the collection of personal information APP 5 requires an APP entity to notify an individual or ensure they are aware , at or before the time of collection, of prescribed matters. Failures at a number of levels aligned to create circumstances that enabled a breach to occur.

Privacy Laws Australia

As with a PIA, an information security risk assessment can be seen as an iterative process and may be undertaken across your business generally. Access monitoring software that provides real time or close to real time dynamic review of access activity can also be useful for detecting unauthorised access to personal information. If adopting this standard, entities must ensure that they apply the definitions of personal information and sensitive information in the Privacy Act.

This pseudo-protection was then copied by Victoria. This section outlines examples of key steps and strategies you should consider under the nine broad topics listed below.

Overview of Privacy Law in Australia

They were the Privacy Commissioner and the Commissioner for Law Enforcement Data Security. The Commissioner stated that it was a reasonable step for the company to implement security processes and procedures to address the heightened risk environment. By becoming a member, you can stay ahead of legal issues while staying on top of costs.

Law in Australia

Where it is not practicable to notify the affected individuals individually, an organization that has suffered an eligible data breach must make a public statement on its website containing certain information as required under the Privacy Act. Is sharing of passwords or passphrases forbidden? Other Resources The Office of the Federal Privacy Commissioner has at times provided , which may disappear from time to time due to incompetent web-site management.

The Privacy Act — OAIC

You should use PIAs and information security risk assessments along with regular reviews so that you are aware of the variety of security risks you face, including threats and vulnerabilities, along with the possible impacts before designing and implementing your personal information security framework. Further, organizations may have additional obligations to notify other regulators of data breaches in certain circumstances including under the Prudential Standard CPS 234 Information Security CPS 234 which aims to strengthen APRA-regulated entities' resilience against information security incidents including cyberattacks , and their ability to respond swiftly and effectively in the event of a breach.
