## God, Humanity and the Cosmos: A Companion to the Science

I consider this textbook fair on science and wise in intertwining issues in theology and science with ecology, climate change, and technology. Murray Michael Robert Negus Lawrence Osborn Michael Poole Jacqui Stewart Fraser Watts David Wilkinson This fully revised and updated edition of God, Humanity and the Cosmos includes new chapters by John Hedley Brooke, Paul D.

### Introductory essay

God, Humanity and the Cosmos, first published 1999, revised and expanded edition 2005, remains the only full-length textbook of the science-religion debate. Contributors also examine such issues as theological responses to the ecological crisis and to biotechnology; how science is treated and valued in education; and the relation of science to Islamic thought.

## God, Humanity and the Cosmos: Challenging a Challenging Textbook — Tilburg University Research Portal

It is divided in five 'books'.

### Introductory essay

An Introduction to the Debate between Science and Religion; 2. Dr Christopher Southgate is Lecturer in Theology at the University of Exeter. Now in its second paperback edition, this textbook serves to introduce the non-specialist to the forefront of issues in science and religion while it also takes the serious reader to the forefront of current research.

### John Smith's

Biotechnology - A New Challenge to Theology and Ethics; 16.

## **Introductory essay**

Contributors include: Christopher Southgate John Hedley Brooke Celia Deane-Drummond Paul D. Christopher Southgate and his seven editorial colleges have wonderfully filled this void with their outstanding textbook, God, Humanity and the Cosmos. It might also be challenging for students, as it introduces them to a variety of perspectives and a rich palette of literature.
