## Standards for member libraries within Alberta's regional library systems

Take responsibility for upholding the confidentiality of records and intellectual freedom rights of all patrons. Methodologies for standards development are discussed, as well as general standards for library service in sparsely populated areas and standards for organization of a province-wide library system, including functions, branch libraries within the system, personnel, quantitative standards for book, periodical, and non-print collections, facilities, and services.

## MLA : About : Allied Library, Information, and Standards Organizations

Since that time, more information about the virus has come to light. Ask for clarification if needed.

## Kitsap Regional Library
