Experiential Learning in Higher Education: Linking Classroom and Community

How, then, might this apply to higher education? The need to provide college students with opportunities to reinforce social and ethical values has caused college faculty to consider ways to incorporate service-learning activities into the formal curriculum Stanton 1988. Already common in art, music and architecture programs, studio courses place students and their projects at the center of the learning experience.

HOW CAN WE LINK CLASSROOM AND COMMUNITY FOR ECONOMIC DEVELOPMENT THROUGH EXPERIENTIAL

LEARNING? This review of the literature focuses on experiential learning in higher education. Many studies show students active in service learning report that they intend to participate in future service. College community service programs like ASB do often devote some attention to providing guidance to programs leaders on how to develop reflection sessions for students, and occasionally such programs become service-learning opportunities by being integrated into an academic course or what has been called a curriculum-based alternative break.

These models are often used as a way of bringing engagement into online instruction. Through development of cooperative education programs, colleges and their faculty and students are brought closer to their communities. Here they compare and contrast their scavenger hunt findings and observations.

So, if you have been incorporating these models of learning in an online course you are engaged at some level with experiential learning.

Seize the Power of Experiential Learning

Can you do experiential learning online? Alumni also report that their community service during college has increased the likelihood of incorporating service into their career development. College educators find experiential learning a valuable adjunct to traditional instruction in these disciplines. Participation in service learning increases the sense of social responsibility felt by students and their commitment to community service.
