## [PDF] Planetary science: A lunar perspective

The Lunar and Planetary Science Conference LPSC , jointly organized by the Lunar and Planetary Institute LPI and NASA Johnson Space Center JSC , brings together international specialists in petrology, geochemistry, geophysics, geology, and astronomy from around the world to present the latest results of research in planetary science. In Abstracts of papers submitted to the 34th Lunar and Planetary Science Conference: Lunar and Planetary Institute, March 17-21, Houston, Texas, LPSC 34th CD, 1917. The results of these investigations permit a deeper understanding of the soil-forming processes of the uppermost layers on the Moon and on the other planets.
