### 5.2.4 Child in Care Reviews

Many children of incarcerated parents, children formally in foster care, and children who would be in foster care were it not for an arrangement made outside of the child welfare system, are living with relatives or, perhaps in some cases, with non-related individuals previously known to the child or parents. Relative caregivers may also find supports through their church communities. Department of Health and Human Services.

#### Child Care Subsidy Stability Literature Review

So we visited another 4 childcare centres over the weekend. .

#### NC DHHS: Division of Child Development and Early Education

Furthermore, the direction of the association between child well-being and stability is not always clear; it may be more difficult for caregivers to provide long-term, stable care for a child who has emotional problems or other special needs. The social worker will ensure that invitations to reviews are sent following consultation with the IRO, they will decide who should be invited taking the child views into consideration. In these studies, the randomness of the assignment of workers to investigate child maltreatment reports in cases at the margins i.

#### Children in Nonparental Care: A Review of the Literature and Analysis of Data Gaps

The core values and mission upheld by BCC are integral to every decision made by the leadership.

An early effort focusing on children living with relatives and without parents also used data from the Current Population Survey, identifying approximately 3 percent of children in this situation Harden et al. Child Welfare Information Gateway: Factsheet for Families. Children may also live with non-relatives either previously known to the child or not who have assumed legal guardianship, serve as foster parents, or have some other caregiving arrangement with the child.

#### Review of Childcare Centre Part 2

In other cases, families may establish such arrangements privately, for a variety of reasons, without ever coming into contact with a child welfare agency. Further, there is no population-wide information on the access to and need for services and supports among children in non-parental care though relatively more is known about receipt of financial supports and health insurance coverage.
