They bring people and communities together — and they release potential. This collection features China-related images from a photograph album held in Special Collections, University of Bristol Library. The series of LCC addresses covers elections until 1913, with the exception of 1910, and records, inter alia, the early involvement of women in the political process.

**Competition: University of Bristol library**

The remote meeting was told that since the papers were published, more objections had been received about the traffic and transport knock-on effects.
