## Bilingual Education Resources

Therefore, in order that intercultural education be real and with a high degree of success, there must be a joint work, where the civil society as well as the state and the indigenous communities play a preponderant role.

### Cummins: Immersion Education for the Millennium

Implications of the project include increased use of bilingual and ESL methodologies in inservice teacher training and a closer attention to background variables of deaf students as they affect language learning. This conclusion suggests that educators in immersion programs should be conscious of the potential for enhancing students' awareness of language by encouraging them to compare and contrast aspects of their two languages and by having students carry out individual and group projects focusing on structural, sociolinguistic, and sociopolitical aspects of language. The programs at both schools are described.
