Indonesia's Technology Challengers Are Racing Ahead

Examples of smart grid technology include smart meters and smart appliances which can optimize power usage both from a cost and supply perspective. A greater number and variety of actors must be involved to initiate, shape, and implement both technical and normative solutions.

Emerging Technology Trends and Their Impact on Criminal Justice

These legal and normative touchstones are underpinned by existing norms, values, and principles. The firm focuses on select core industries and practice areas, including Entertainment and Media, Intellectual Property and Advanced Media and Technology. I will return to the topic of information brokers later.

New Tech, New Threats, and New Governance Challenges: An Opportunity to Craft Smarter Responses?

The terrorist attacks of 9-11 have launched us into just such an era of turmoil and uncertainty. The California legislature has begun this process, passing laws in recent legislative sessions to assist individuals with wrongful criminal records. The Internet was designed as an inherently insecure communications vehicle.

Indonesia's Technology Challengers Are Racing Ahead

Nonetheless, in each of these areas, maintaining dialogue on the core principles and norms that should guide activity in outer space—particularly those that restrain destabilizing behaviors and ensure equitable access to potential benefits—will be imperative as will ensuring that the private sector, industry associations, and other relevant actors in these government-led processes and mechanisms are given greater opportunities to voice their views.

Perspective Courses

Readers who want to explore issues in depth should visit the Web sites of government agencies, public interest groups, industry associations, and

companies. The number of companies founded in Indonesia is growing by 30 percent year-on-year, outpacing India, Singapore, Japan, and China. Procedures vary from jurisdiction to jurisdiction, and from state to state.

Privacy Today: A Review of Current Issues

They span different policy areas and issues, enlist a dizzying host of actors, and straddle numerous international regimes. By 2022, the average household with two teenage children will own roughly 50 Internet-connected devices according to estimates by the Organization for Economic Co-operation and Development. BCG research shows that the more partners in an ecosystem, the better the ecosystem will fare.

Visions of Government in 2040: Perspectives on the Future

California recently amended its investigative consumer reporting act to require that all individuals who are the subject of background checks, with exceptions for suspicion of wrongdoing, have the opportunity to receive a copy of the report.
