## Autonomous vehicles: challenges, opportunities, and future implications for transportation policies

The findings demonstrated the direct link between energy savings and improving functionality and reducing costs.

## 7 Circulatory System Diseases: Symptoms, Risks, and More

There have been various instances where Artificial Intelligence has gone wrong when Twitter Chabot started spewing abusive and Pro-Nazi sentiments and in other instance when Facebook AI bots started interacting with each other in a language no one else would understand, ultimately leading to the project being shut down. Large and rapidly growing abdominal aortic aneurisms are at greatest risk of rupturing.

## Development and evaluation of an automated fall risk assessment system

The average age of the participants ranged from 54.

## Autonomous vehicles: challenges, opportunities, and future implications for transportation policies

Such real-time communication data may result in collaboration between the AVs directionality capabilities, leading to more efficient and intelligent path-finding or traffic flow. The best cut-off points were determined by the Youden index.
