## PHILOSOPHY HISTORY AND PROBLEMS

Pragmatism and Process Philosophy 18. Normative criticism is thus not only based on the moral and cognitive distance created by relating and crossing various perspectives; it also has a practical goal. This connection can be quite direct, as when empirical studies show that existing forms of participation are highly correlated with high status and income, that lower income and status citizens were often unwilling to participate in a public forum for fear of public humiliation Verba, et al 1995, Mansbridge 1991, Kelly 2000.

Still others look to the emergence of various institutions in the European Union EU to discuss the trend toward international constitutionalism or supranational deliberation. Habermas admits that in the case of cultural values we need not expect such agreement, and he even introduces compromise as a possible discursive outcome of democratic procedures.

### Integrated History and Philosophy of Science: Problems, Perspectives, and ...

Early Modern Philosophy begins at the time the various Renaissance and Reformation periods began, looking at key philosophers such as Machiavelli, Bacon, Hobbes, Descartes, Spinoza, Leibniz, and the British Empiricists; this was also the advent of the scientific revolution and prelude to the Enlightenment, so there were philosophies of politics, religion, science, knowledge and ethics significantly different from anything before. Democratic institutions have the proper reflexive structure and are thus discursive in this sense.
