Ortsgeschichtsschreibung im Kanton Bern

Die peripheren Gebiete wie das Berner Oberland und das obere Emmental bilden fast weisse Flecken in dieser Publikationslandschaft. Here, it will suffice to underline that their development from the late Middle Ages and into the early modern period seems to be another response of European societies to food problems; in the case of Italy, for example, many of these institutions were established at the time of the great famines of the early fourteenth century, and were strengthened during the sixteenth century when food security again became an issue.
