14 The Banking Sector in a Transition Economy: The Case of Poland : Banking Soundness and Monetary Policy:

As trade barriers were lifted, the newly-established private companies had to compete with the ultra-efficient multinationals of North America, Western Europe, Japan, South Korea and Australasia. They heard it in shops when they tried to buy meat or wine.

Restructuring and Development of Banking Sectors in Advanced Transition Countries: Lessons for Bulgaria. The Case of Poland

This allows to link your profile to this item.

Drivers of corporate environmentalism: The case of the Polish economy in transition

That gives it the best track record of any current European country, and one of the best records of any country ever.

14 The Banking Sector in a Transition Economy: The Case of Poland : Banking Soundness and Monetary Policy:

Methods: The hypothesis was tested with fixed effects panel regression with robust standard errors. Our findings suggest that matching abilities are highly driven by demand fluctuations, while unemployment structure, ALMPs and individual labour office capacities have little explanatory power.

(In)Efficiency of Matching

Your next task is to promote and ensure the realization of economic prosperity in Poland, to include stable growth, full employment, low inflation, high productivity and a Mercedes or equivalent in every garage.
