Chapter 3 The history of production of the western phosphate field

Thus, these regulations apply for purposes of the Code and the corresponding provisions of ERISA. A, Introduction, by Mackenzie Gordon, Jr. Relatively flat terrain with no narrow valleys or canyons will mitigate this impact.

Rest of 2015

Grantee shall make separate application, under applicable statutes and regulations, for additional authorizations to use or occupy Federal lands in connection with the Line. Apprehension, Custody, and Detention Title 8, CFR part 236, subpart A 8 CFR part 236, subpart A describes the procedures for apprehending, detaining, and removing aliens under the Immigration and Nationality Act. The Authorized Officer may at any time inspect the onsite construction and maintenance activities of Grantee in connection with the Line.

Federal Vol. 81, No.175,

Index of surface-water records to September 30, 1967 — Part 10, The Great Basin, by H. Adding paragraphs e 2 iv through v.

U. S. GEOLOGICAL SURVEY BULLETINS #1100

The right-of-way herein granted shall be subject to the express covenant that it will be modified, adapted, or discontinued if found by the Secretary to be necessary, without liability or expense to the United States, so as not to conflict with the use and occupancy of the land for any authorized works which may be hereafter constructed thereon under the authority of the United States. The authority citation for part 17 continues to read as follows: Authority: 21 U.

Hydrogeochemistry of the Meade thrust allochthon, southeastern Idaho, U.S.A., and its relevance to stratigraphic and structural groundwater flow control

Structure- contour interval 40 feet.

Federal Vol. 81, No.175,

As such, we are revising 40 CFR 52.

Rest of 2015

FWS had agreed, as part of settlement agreement, to discontinue cultivating and using the GMCs in the Southeast Region after the 2012 crop year. However, unless real impacts on the refuge can be shown, moving the line south and thus making it longer does not appear warranted.

NGMDB Product Description Page

In addition, this rule does not have tribal implications as specified by Executive Order 13175 65 FR 67249, November 9, 2000 , because the OCS requirements are not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.
